

## California Energy Commission

## California Public Utilities Commission

**The California Public Utilities Commission (CPUC) and the California Energy Commission's (CEC) Energy Action Plan (EAP) Steering Committees are jointly presenting a revised draft of EAP II and are seeking comments before the CEC and the CPUC adopt the EAP at their respective meetings on Aug 24 and Aug 25, 2005.**

At their joint Energy Action Plan meeting on June 15, 2005, the two agencies along with other California's principal energy agencies discussed the continued implementation of EAP I and introduced Draft EAP II, which identified the actions necessary to continue forward movement on California's energy future. After receiving oral and written comments from parties on the Draft EAP II, the EAP subcommittees of the CEC and CPUC are now jointly presenting a proposed revised EAP II Draft for consideration by the two agencies.

The CEC plans to adopt the final EAP II at its Aug 24 Business meeting and the CPUC plans to adopt the EAP II at its Aug 25, 2005 Commission meeting. Both agencies are seeking final comments from parties prior to adopting the draft in their respective business meetings. Parties who wish to provide comments to the revised EAP II draft may do so by 5 pm on Wed, Aug 3<sup>rd</sup> via email or regular mail. No late filed comments will be considered. Comments should be limited to 3 pages and should be directed to both:
